

IMMIGRANTS WORK

An immigrant working in Canada fills a job that may otherwise remain unfilled.

- 25% of Canada's population will retire by 2035
- Canada's birth rate is not high enough to maintain our population
- current trends suggest 100% of Canada's population growth by 2035 will be through immigration

Ask your candidate:

Please tell us your Party's position on immigration and refugees.

What will you and your party do to build a community where all can belong and grow?
